

Alejandra Perez

Front-End Developer

perezalejandra.e@gmail.com || <https://www.linkedin.com/in/alejandraelizabeth/> || <https://www.alejandraperez.ca>

A front-end developer with a background in various programming languages and frameworks, but has an interest in website architecture. Enjoys determining hardware and software requirements to enhance applications. Able to plan, design, write, modify, integrate and test web-site related code. Keen on joining a team that develops interactive media products and emphasizes mentorship when developing website content and graphics.

TECHNICAL SKILLS

- HTML
- CSS
- CSS3
- HTML5
- JavaScript
- ES6
- Java
- Node.js
- jQuery
- SQL
- Visual Studio Code
- Brackets
- MongoDB
- Version control software (GitHub)

PROJECTS

Animated Landing Page (HTML, CSS)

August 2019

- Designed enjoyable animations for a satisfying user interface using web technologies

Budget Application (HTML, CSS, JavaScript)

July 2019

- Collaborated with a professor to design a budget application, containing object-oriented programming principles
- Tested feature specs of app to repair areas that needed troubleshooting so their functionalities would deliver desired results
- Ensured that writing less code was accomplished when defining new ways to enhance user experience

Dice Game (HTML, CSS, JavaScript)

June 2019

- Redesigned and setup of this game on a local server to ensure solutions and design to the UI had a new aesthetic

Loop of Questions (JavaScript)

May 2019

- Designed to probe a set of questions on a browser console and reward one point when the question is answered correctly
- Diagnosed and troubleshoot function constructors, closure and IIFE to ensure they generated desired results

EXPERIENCE

Software Testing Assistant

May 2018 – April 2019

Ministry of Community and Social Services, North York, ON

- Communicated with a QA team and developers to collect testing requirements and deliver appropriate strategy
- Analyzed technical data and documentation to develop test cases that improved QAs testing time efficiency
- Tested, revised and maintained technical documentation and imported them to the HP Quality Center
- Performed integration testing, systems testing, and regression testing to ensure software changes were reducing human effort, time efficiency and produced reliable results
- Provided support to the automation team by debugging and executing test scripts using VBA to decrease backlogs by 10% using the HP QTP application
- Analyzed automation files to create scripts for the case management side of the software, to be tested and assess which areas needed further testing

SOFT SKILLS

- Excellent self-motivator who needs minimal direction
- Excellent customer service and people skills
- Effective time management skills
- Strong English oral and written communication skills
- Strong work ethic
- Exceptional attention to detail on technical projects

EDUCATION

Diploma of Applied Arts & Technology: Computer Programming
Seneca College, Toronto, ON

January 2016 – June 2019

Bachelor of Arts Degree: Sociology & Minor in Psychology
Carleton University, Ottawa, ON

September 2010 – August 2015
